1. Release history

FlowDesk 2.4 - released 12 February 2026

- Copilot summaries (v1) for human agents.
- SLA rules: first-response and resolution timers with escalation.
- AI resolution rate on release: 28%.

FlowDesk 2.5 - released 18 April 2026

- WhatsApp channel - public beta.
- Analytics dashboards: CSAT, backlog, agent productivity.
- Fixed: chat widget failing to load on Safari 17.

FlowDesk 2.6 - released 20 June 2026

- Knowledge Gap Detector - beta.
- SSO / SAML for Enterprise.
- Deprecated: legacy REST API v1 (removal 31 March 2027).

FlowDesk 3.0 beta - released 1 August 2026

- Auto-Resolve Agent and Smart Routing v2 opened to 120 design-partner customers.

FlowDesk 3.0 (GA) - released 15 September 2026

- Auto-Resolve Agent - general availability.
- Smart Routing v2 replaces round-robin routing.
- WhatsApp channel - general availability.
- Knowledge Gap Detector - general availability.
- Multilingual AI in 12 languages (incl. Hindi and Tamil).
- Offline Auto-Resolve accuracy at GA: 93.1% (target was 92%).

FlowDesk 3.0.1 - released 2 October 2026

- Fixed: Auto-Resolve sometimes sent duplicate replies in Gmail threads.
- Fixed: Smart Routing ignored the 'VIP' tier tag for WhatsApp tickets.

- Known issue: Hindi/Tamil transliterated (Roman-script) messages are often handed off to a human. Fix targeted for 3.1.

2. Roadmap
